EDUCATION

2019 - 2023
UNIVERSITY OF ENGINEERING
AND TECHNOLOGY, PESHAWAR

- Bachelor of Computer Science
- GPA: 3.80 / 4.0

SKILLS

- Blender
- Substance painter
- Unity
- Unreal Engine

LANGUAGES

- Pashto – Native
- Urdu – Fluent
- English – Intermediate

PROFILE SUMMARY

Creative and results-driven 3D Artist with proven expertise in modeling, texturing, and optimizing assets for real-time applications across Unreal Engine, Unity, and 3D printing workflows. Proficient in industry-standard tools such as Blender for 3D modeling and Substance Painter for advanced PBR texturing. Experienced in delivering visually compelling and technically sound assets in collaborative team environments. Adept at balancing artistic vision with performance constraints, consistently meeting project deadlines and quality standards.

WORK EXPERIENCE

2022 - PRESENT

AptechMedia

3D Artist & Unreal Engine and unity game designer

- Produced and optimized high-quality 3D assets for over 200 commercial and internal projects—featuring prominent titles and environments such as Slash of Royal, GL Home, UV aye, HoN Game Characters, Takashi Ninja Character, Million Dollar Baby, and Saga OF Wings.
- Successfully integrated assets into both Unreal Engine and Unity environments, ensuring seamless real-time performance and visual consistency.
- Utilized Blender for detailed modeling and Substance Painter for professional PBR texture workflows, capturing specialized styles ranging from stylized hand-painted looks to realistic surfaces.
- Delivered versatile models fully compatible with standard 3D printing pipelines and cross-platform game engines.
- Contributed to UI design and core gameplay systems across a diverse portfolio of notable commercial projects, including Kitchen Simulation and Eleven22.

BIG Ventures Inc.

2025 - 2025

Senior 3D Artist & AI Video Creator

- As a Senior 3D Artist and AI Video Creator, I merge artistic vision with cutting-edge AI technology to produce cinematic visuals, 3D animations, and engaging video content. I specialize in crafting detailed 3D assets, environments, and characters using Blender and Substance Painter, combined with advanced AI-driven storytelling and post-production techniques.
